welcome to

the malvern collection

In the early 1970s, we started to design and produce garden buildings at our factory in Worcestershire. All of our buildings are made to order and handcrafted using traditional carpentry techniques by skilled craftsmen, which are then delivered and installed by our own teams of experienced fitters across the country.

The Malvern Collection design and make a wide collection of buildings, from the humble shed right through to fully lined, insulated and double glazed garden rooms and offices designed for all year round use. We offer a wide selection of optional extras which enable you to create your ideal garden room to meet not only your practical needs but also your own personal taste. Our paint spraying shop is one of the most advanced spraying and drying facilities in the garden building industry, where buildings can be coated with a highly durable and weather resistant, low maintenance paint and primer system, which will protect and enhance your building.

At Malvern, we use only the highest quality materials from sustainable sources. Our redwood buildings are constructed using kiln dried slow grown pine from Sweden's Northern sawmills and our cedar buildings are constructed using Canadian Western Red kiln dried cedar.

We strongly recommend that you visit one of our display sites where you can examine for yourself the quality, design and materials used in the manufacture of our buildings. Experienced staff will be on hand to discuss your individual requirements.

steeped in history

- 1916** Palmer Timber was established by William Henry Palmer, based in Old Hill and focused on dealing in homegrown hardwoods.
In the early 1970s William's grandson "Bill" began to import timber from Scandinavia and North America which led to significant growth in the business.
Palmer's used this opportunity to expand, modernise their facilities and machinery which is still very much part of the business today.
- 1972** In a converted chicken shed on a farm in Worcestershire, Doug Pound created D.W. Pound Garden Buildings, making and selling sheds and summerhouses.
As business grew, D.W. Pound became a key customer of Palmer Timber and relationships were formed.
- 1994** After 20 years of trading, Doug Pound decided to sell up and retire, Palmer Timber took this opportunity to expand further and bought the business which it still owns today.
- 1998** The Company invested heavily in a new 8,000 square-foot, modern window and door production facility, using the latest woodworking machines to produce some of the highest quality doors and windows in the industry.
- 2002** "The Malvern Collection". A rebrand is undertaken, and the new trading name is established providing the foundations for our business today.
- 2004** The introduction of our "hand sprayed" buildings. Our paint spraying shop is one of the most advanced spraying and drying facilities in the garden building industry.
- 2023** Today our factory occupies a four-acre site and employs 140 people, including teams of experienced installers, producing the most comprehensive range of garden buildings in the industry, displayed throughout the country on multiple established show sites.

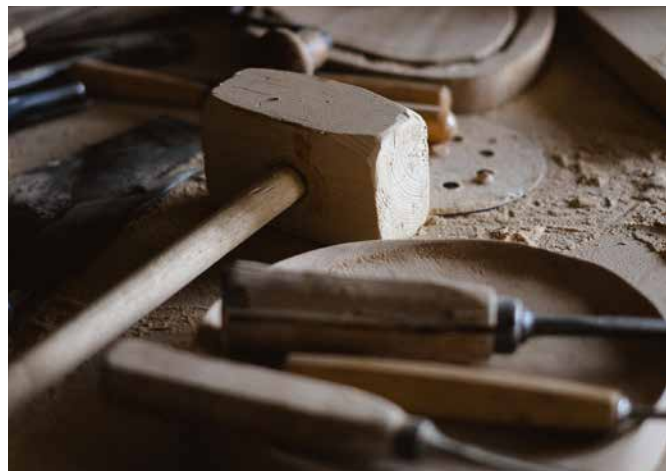

**“Nothing is more fitting
for garden buildings
than the warmth, beauty
and character of wood”**

experts in **materials & craftsmanship**

Handmade in our factory for over 50 years, all Malvern timber garden buildings are made to order combining age-old techniques, time-honoured joinery practices with modern woodworking machinery.

The premium quality materials used throughout our manufacturing process will ensure enjoyment of your Malvern Collection building for years to come.

At Malvern we are passionate about making garden buildings, and proud to be manufacturing the most comprehensive collection of buildings available in the UK today, many of which are on display throughout top garden centre show sites across the country.

studio

PAVILION

An attractive multipurpose building that combines outdoor and indoor areas to create the ultimate in garden room spaces.

Fully double glazed as standard with further additional options to choose from, including more than twenty window sizes, decorative roof choices and a number of different timber claddings.

Add the option of lining and insulation to your building and create a warm and comfortable indoor space all year round even in the coldest and wettest of months.

Tailor the design of your building to suit your needs, create rooms within rooms, add walls and partitions, maybe a workshop area or an open area for al fresco dining, the choices are endless. Our expert sales team will work with you to create the building of your dreams.

studio

PAVILION

studio

FLAT

The flat style roof gives a modern contemporary feel to this design, with the fully glazed front elevation allowing natural light to flood into your building, bringing the outside in.

Double glazed as standard, with double doors and the option of adding extra windows if required. The building is covered with a one-piece heavy-duty rubber roof. Available in over twenty different sizes, with a choice of external cladding options.

Personalise your building by adding one of our high-quality, durable and weather-resistant paint finishes with twenty-four attractive colours to choose from.

To provide all-year round use, add decorative lining and insulation to your building.

studio

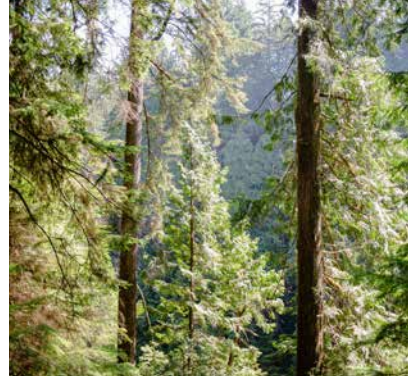

FLAT

studio

PENT

A neat minimalist style, cost effective and low maintenance studio providing a very flexible space.

With double-glazed windows to the front, alongside double opening doors, choose from the many studio options to personalise your building, including cladding, lining/insulation, painted finishes and more than twenty sizes to consider.

Our experienced team is on hand to help you make the right choices on the most suitable designs and additional features for your building needs.

studio

APEX

A timeless and traditionally designed garden studio. A building that lends itself to many uses, like outdoor living, working or simply just relaxing.

With endless options on timber claddings, paint finishes, lining and insulation, roof finishes and flooring options, additional windows and doors, room dividing walls you really can create a space to satisfy any of your needs.

studio

HIPPED

This airy and light garden studio is an incredibly versatile building.

Where extra height is required, the hipped roof garden studio has vaulted ceilings to make the space yet more flexible to suit work or leisure or even a garden gym.

The studio hipped has numerous options, enabling you to customise your building to ensure it is both practical on the inside and attractive on the outside. Double glazed as standard, insulation can be added for year-round comfort, with many exterior finishes to choose from.

studio

CORNER

The corner studio is the ideal solution when outside space is a premium, for the smaller gardens.

A building that tucks neatly away in the corner, making it a very practical garden room whilst enjoying all the options of our studio range.

studio

RETREAT

With its sleek modern styling, this contemporary garden studio will enhance your garden from a practical and visual aspect. A building to reconnect you with your garden all year round.

A stylish flat roof studio, housed by a durable rubber roofing material, double glazed throughout, with opening doors which are set back into an integral front porch.

There is a choice of Scandinavian redwood cladding or Western Red Canadian cedar cladding, which can be finished with either one of our paint colours or a clear semi-gloss lacquer.

GARDEN ROOMS
& OFFICES

hanley

The Hanley's contemporary design will become a stunning feature in your garden. The glass to ground glazing design allows natural light to pour into your garden room all year round. A versatile garden room with a contemporary feel.

The Hanley is fully insulated throughout resulting in a garden room that can be enjoyed and used in all weather conditions, all year round.

As standard the Hanley has uPVC double glazed to ground windows and doors across the front with one fixed glass to ground in each side. There are two opening windows in the rear wall for added ventilation.

The Hanley can be customised to suit your individual design, windows and door configuration can be adapted to suit your requirements by adding windows, doors or removing completely. Interior walls and doors can be added to create rooms within rooms.

GARDEN ROOMS
& OFFICES

hanley

GARDEN ROOMS
& OFFICES

hanley retreat

The newest addition to the Garden Office collection, a stylish, modern and contemporary whilst comfortable garden room, fully double glazed with uPVC windows and doors, fully insulated throughout means you can reconnect with your garden all year round.

An integral front recess access point houses a functional and practical sliding door, finished off with a weather resistant composite decked floor.

Smart and sophisticated vertical cladding adorns the outside of the building to further enhance the contemporary feel, where you can choose from the extensive range of coloured painted finishes or clear semi-gloss lacquer.

A building that has to be experienced to truly appreciate the charm, quality of workmanship and materials that have come together to create this beautiful garden room.

GARDEN ROOMS & OFFICES

corner hanley

The Corner Hanley & Corner Hallow share all the same characteristics as their sister buildings the Hanley & Hallow but designed specifically to fit into the corner of your garden.

The Hallow is one of our most adaptable and versatile buildings in our range. Whether you need a garden office, a general hobbies room or just an extra room of your own, the Hallow lends itself to all those and many more.

The Hallow is fully insulated throughout meaning your garden room can be enjoyed and used in varying weather conditions all year round.

As standard the Hallow has uPVC double glazed French doors to the front and four casement vent windows, two to the front and one either side.

GARDEN ROOMS
& OFFICES

hanley plus

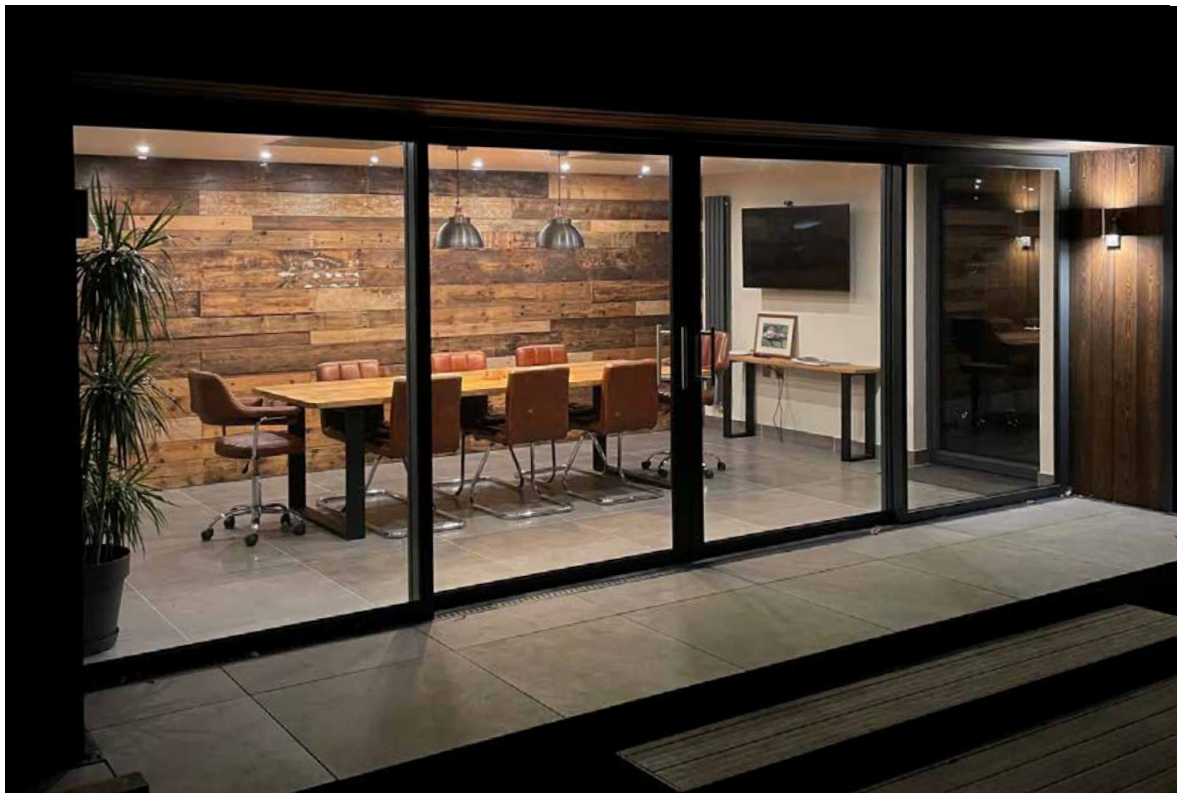

The Hanley Plus is a stunning, modern, light and airy garden room allowing uninterrupted views of your garden. A contemporary garden room for work, entertaining or just a room for relaxation and enjoyment.

The Hanley Plus is fully insulated throughout, meaning your garden room can be benefitted from and used all year round, whatever the weather.

As standard the Hanley Plus has a powder coated aluminium double glazed glass to ground windows and doors across the front elevation with a fixed window in each side. There are two opening lockable privacy windows in the rear wall to allow ventilation.

The Hanley Plus can be customised to suit your individual design, windows and door configuration can be adapted to suit your requirements by adding windows, doors or removing completely. Interior walls and doors can be added to create rooms within rooms.

cottage | HOPTON

The elegant and classically designed Hopton will complement and enhance any garden setting.

This beautiful garden room remains one of our favourites, available in six different sizes to accommodate varying sizes of garden. Its octagonal design allows it to fit well into numerous positions within your outside space. The perfect garden room, to relax in on those lazy summer days and evenings.

The Cottage Range have an array of beautiful options to enhance the look, from cedar shingle roofs, EPDM rubber roofs, painted mdf or tongue & groove interior linings, laminate floorings and a comprehensive choice of different colour paint finishes. Windows and doors are fitted with plain single glazing, Georgian or square leaded style are available as optional upgrade. Black window and door furniture are fitted as standard, solid brass and chrome are available as an option. The majority have double locking doors. The Cottage range has varying quantities of opening and fixed windows dependant on size and model, additional can be added if required. Please see price list for full list of optional extras and technical information.

cottage

CLIFTON

This attractive corner garden room which has been especially designed to fit into that quiet, peaceful and sunny corner in your garden. The Clifton will fill an awkward corner space providing a focal point, will provide the ideal place to sit and enjoy uninterrupted views of your garden.

cottage

HARWOOD

The attractive quaint garden room is ideal to fit in a sunny area in your garden where height is also a factor to consider. While having all the practical use of a Cottage style garden room, it will complete a corner of the garden perfectly providing a functional, multipurpose, useable space all year round.

cottage

ASHTON

The Ashton is the picture of the traditionally designed timeless English summerhouse.

This pretty and versatile garden room can be used for many different activities, simply a room to relax and unwind, entertain and dine or even work from. The Ashton is available in fifteen different sizes.

The Ashton has a vast range of optional extras available to enhance its finished look, five different roof styles, cedar shingle tiles, felt tiles, timber slatted roofs in pressure treated redwood or cedar or the slate effect tiled roof. A range of laminate floorings, interior linings and an extensive choice of paint coloured finishes.

Windows and doors are fitted with plain single glazing as standard, Georgian or square lead style windows are available as optional upgrade. Black window and door furniture are fitted as standard solid brass and chrome are available as an option. Each model has a set of double locking doors to the front with a fixed window either side and two opening windows on each side elevation. Please see price list for full list of optional extras and technical information.

cottage

ASTWOOD

The classically designed Astwood. The wide range of sizes make it your ideal garden room, whether you are using it for an outside dining and entertaining room, a pool side changing room or a garden office to work from home – the options are in an abundance.

cottage

TENBURY

This classic timeless summerhouse has been designed with a more traditional character. It can be utilised for varying activities, from a games room to entertaining guests in a dining room away from the house, doors open to allow the fresh air in. There are a wide range of sizes to choose from and to suit individual requirements. It will go on to give many years of enjoyment.

cottage

STRETTON

Our enchanting Stretton garden room. This diverse and multifunctional garden room could be used for a wide range of uses, whether that is purely relaxing in your garden or enjoying the company of friends over a glass or two of wine on those long and dusky summer evenings.

cottage

HANBURY

An attractive rectangular open sided building available with either an apex or hipped style roof. A truly versatile building that can be used in many ways, a shady sheltered area to sit & relax in while enjoying the views of your garden, a dining area, a space to house a hot tub, the list is endless! The options to add full height or half boarded panels will ensure it fits into every kind of space providing privacy if necessary. The ability to add additional entrance points makes it even more functional. To enhance the aesthetics further, you can alter the roof finish to cedar shingle tiles, felt tiles, timber slatted roofs in pressure treated redwood or cedar or the slate effect tiled roof.

“Timber provides natural charm and warmth that can’t be duplicated by plastic or metal”

S H E D S

potting
S H E D

The potting shed is built to the same timber specifications as our Malvern Heavy Duty Shed range.

A pretty and practical building that combines growing space with a storage shed. Many of the options on the Malvern Shed range are also available with our potting sheds. See price list for full details.

S H E D S

victorian
GREENHOUSE

Constructed using clear grade western red cedar (*Thuja Pilcata*) throughout, providing natural durability and resistance to rot. Handcrafted for over 50 years by our experienced joiners in Worcestershire, using time-honoured techniques creating precision mortise and tenon joints to give our Victorian greenhouse strength and integrity. The Victorian greenhouse features cedar clad board panels all round, offering greater heat insulation and increased greenhouse strength. Other key features are the solid brass ironmongery, automatic roof vents, lockable door, guttering and downpipes to both sides. Staging and shelving can be added along with one of our many durable exterior paint finishes.

S H E D S

bewdley

Handmade in Worcestershire, the Bewdley traditional shed, a classic garden shed, is available in both apex and pent style roof options and the very handy and practical corner shed.

Our traditional Bewdley shed is also built on heavy duty framework, ensuring rigidity in its design, and includes standard features such as fully framed, ledged and braced doors with a lockable rim lock and opening windows.

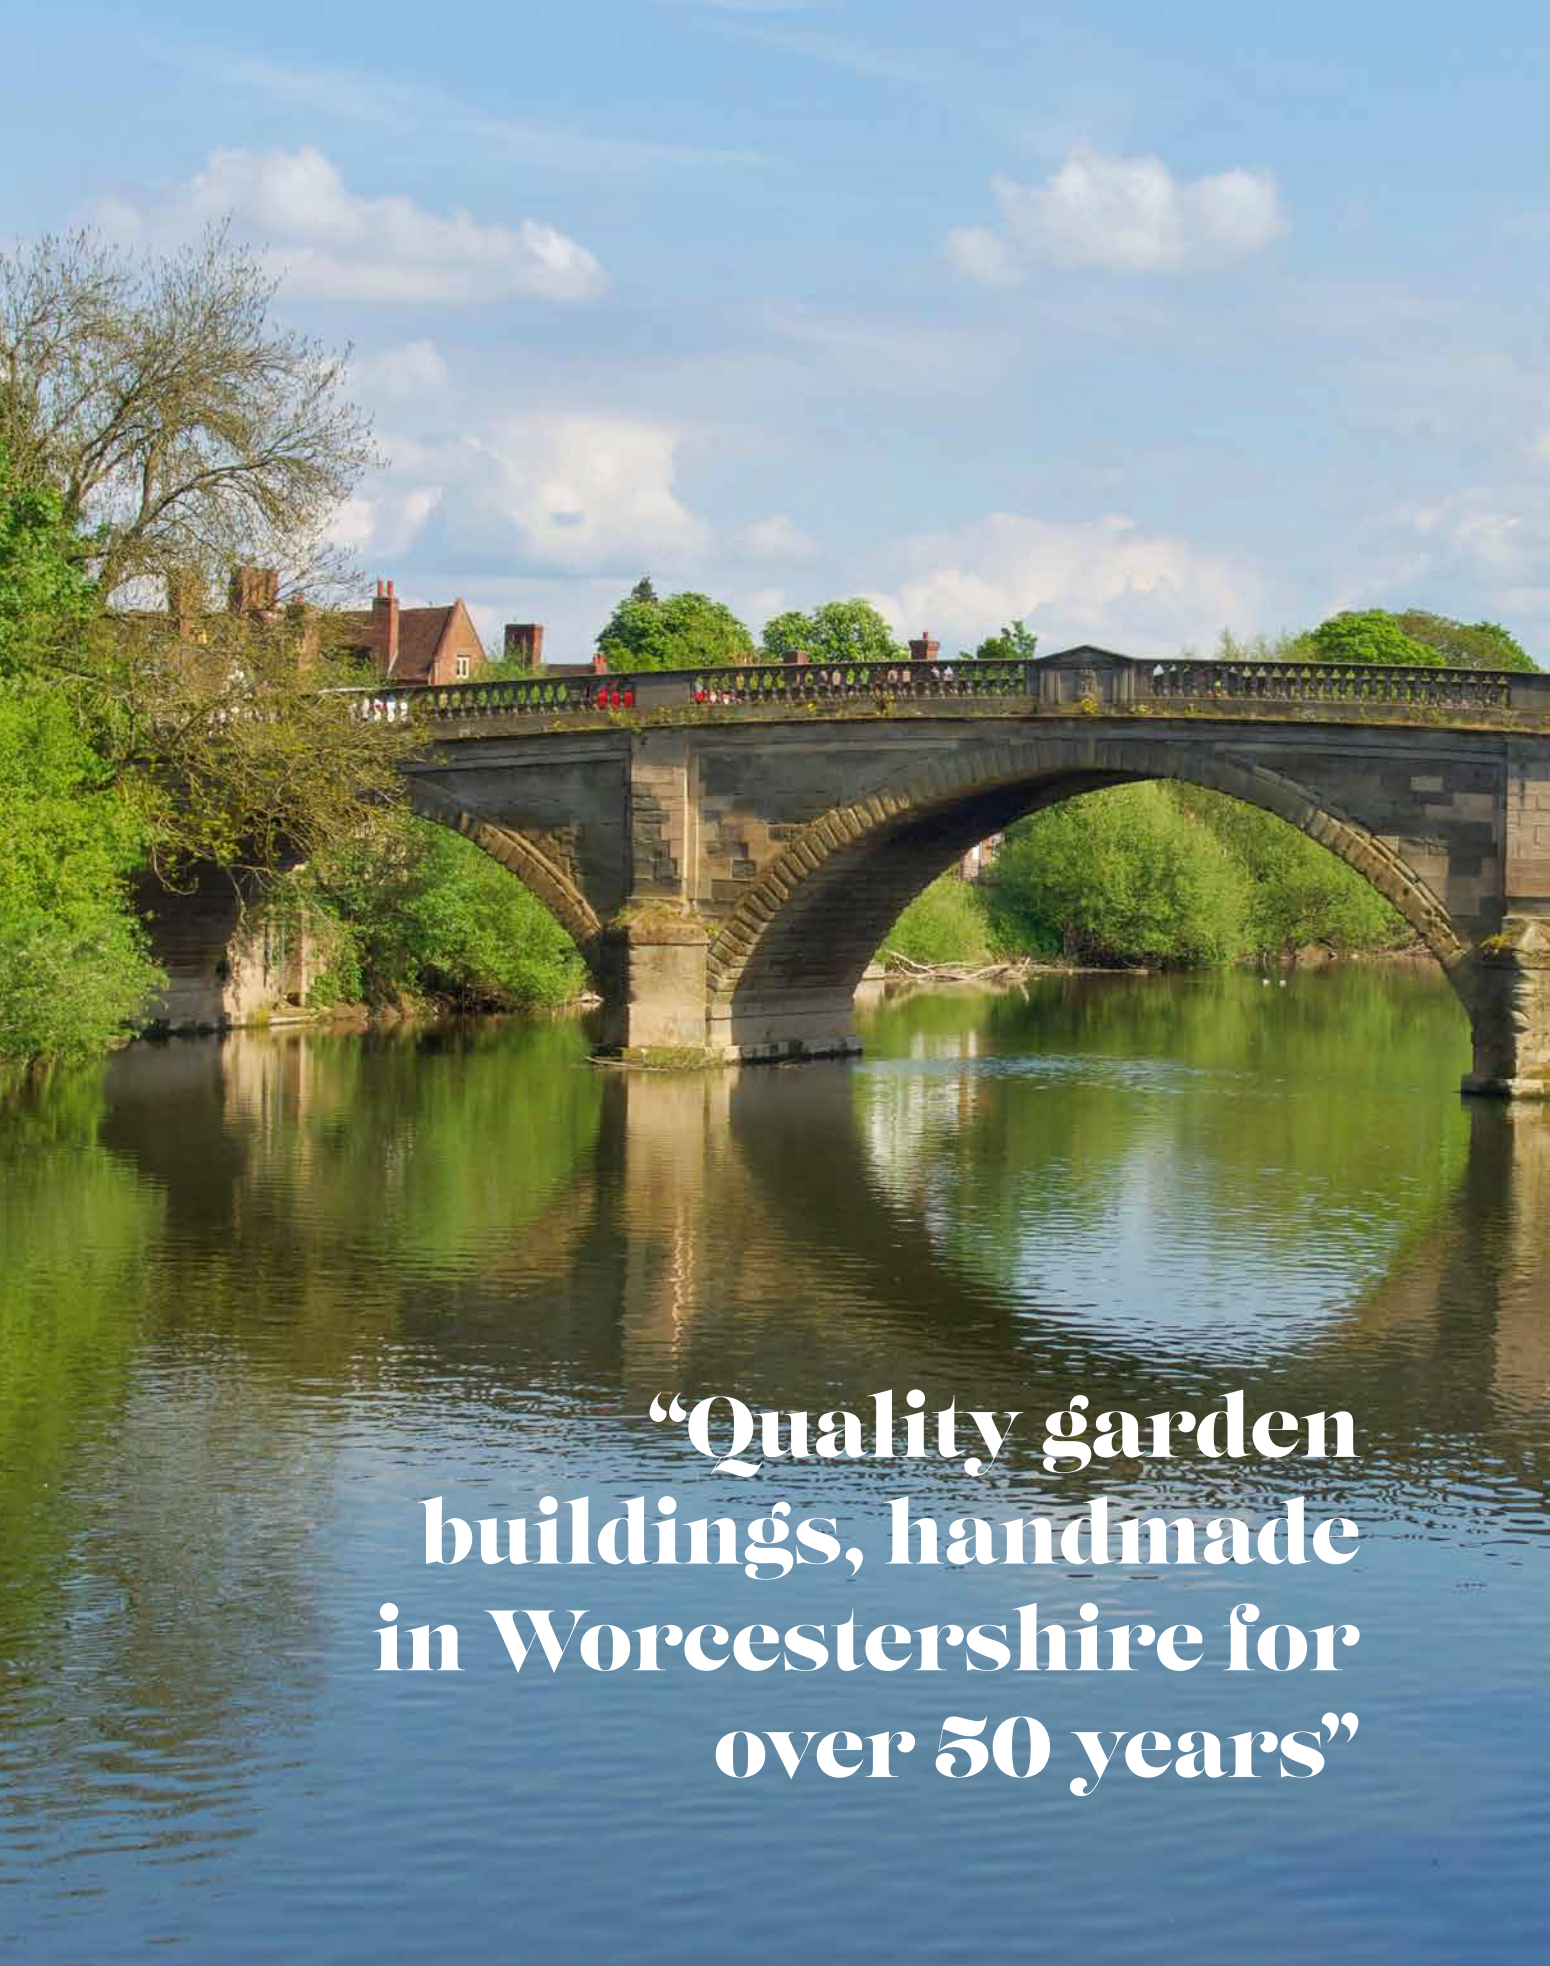

All of our sheds have solid timber roofs and floors fitted as standard, all available options can be found in the price list.
