welcome to

the malvern collection

HANDMADE IN WORCESTERSHIRE FOR OVER 50 YEARS

In the early 1970s, we started to design and produce garden buildings at our factory in Worcestershire. All our buildings are made to order and handcrafted using traditional carpentry techniques by skilled craftsmen, which are then delivered and installed by our own teams of experienced fitters across the country.

The Malvern Collection design and make a wide collection of buildings, from the humble shed right through to fully lined, insulated and double glazed garden rooms and offices designed for all year round use.

The Cottage Range is a collection of beautiful handcrafted garden rooms that will enhance and complement any garden.

We offer a wide selection of optional extras which enable you to create your ideal garden room to meet not only your practical needs but also your own personal taste.

At Malvern, we use only the highest quality materials from sustainable sources. Our redwood buildings are constructed using kiln dried slow grown pine from Sweden's Northern sawmills and our cedar buildings are constructed using Canadian Western Red kiln dried cedar.

Our paint spraying shop is one of the most advanced spraying and drying facilities in the garden building industry, where buildings can be coated with a highly durable and weather resistant, low maintenance paint and primer system, which will protect and enhance your building.

We strongly recommend that you visit one of our display sites where you can appreciate the quality, design and materials used in the manufacture of our buildings. Experienced staff will be on hand to discuss your individual requirements.

cottage

ASHTON

10' x 8' Ashton

12' x 8' Ashton

12' x 8' Ashton

10' x 8' Ashton

Standard Features

- A wide range of sizes to choose from
- Opening windows in each side and fixed windows either side of the double doors
- Lockable double doors
- Plain, single glazed windows and doors
- Black ironmongery
- Toughened glass
- Polyester mineral felt in green, black or red
- Tongue and groove timber roof and floor
- High quality timber treatment applied throughout prior to delivery (excluding pressure treatment)

Options

- A choice of Redwood, Heavy Duty Redwood, Heavy Duty Pressure Treated or Western Red Cedar tongue and groove cladding types
- Georgian style windows and doors
- Square leaded glazing
- Tinted glass (plain glass only)
- Additional windows
- Privacy style windows
- Brass or chrome ironmongery
- Bitumen felt tiles - available in a choice of three colours
- Pressure treated slatted roof
- Cedar slatted roof
- Cedar shingle roof
- Slate effect tiled roof - available in a choice of three colours
- Tongue and groove timber lining and insulation
- Painted MDF lining and insulation
- Comprehensive paint system to protect and decorate available in a variety of colours
- Laminate floor - a wide selection to choose from
- Heavy duty floor
- A set of pressure treated floor bearers

“Astwood Garden Room”

On the 30th Jan - a bitterly cold day with snow - we took delivery of the Astwood garden room we had ordered, and were delighted with the service we received from start to finish! As stated it arrived at 7.30am prompt with the agent and his co worker. They set to work immediately, were really friendly, helpful and did a fantastic job of building our much anticipated summer house. In all they were brilliant and we really appreciated all they did to make this a smooth stress free experience, advising us on all aspects of adding to it and looking after it in the future. Although it's not the biggest of your range we are absolutely 100% delighted with it, the colour we chose is Fleet Grey and looks really good and the finish is excellent. The service from the initial choosing and ordering has been very positive and we would have no hesitation whatsoever in recommending you. Looking forward to enjoying using it for many years to come!

written by branthegreatdane on 20/02/2023

“Hopton”

Very pleased with our purchase. Looks stylish and complements our back garden. Well constructed and fitted in a day. Not really used it yet as the weather has been awful - roll on the summer! One tip is that your initial order should include laminate flooring as the base is just plain wood.

written by gpColeman1955 on 20/12/2022

“Hopton Summerhouse Ex-Display Model Installation”

We bought a 7 x 7 foot Hopton Summerhouse as an ex-display model. It was 4 years old, which means it has weathered nicely.

The installation team were brilliant - attended to every detail. The customer service team were also great - they were very prompt in their responses to our questions and always very helpful. We would definitely recommend the Malvern Collection as a company - absolutely delighted with our summerhouse and the service we received.

12' x 8' Tenbury

Standard Features

- A wide range of sizes to choose from
- Opening windows in each side and fixed windows either side of the double doors
- Lockable double doors
- Plain, single glazed windows and doors
- Black ironmongery
- Toughened glass
- Polyester mineral felt in green, black or red
- Tongue and groove timber roof and floor
- High quality timber treatment applied throughout prior to delivery (excluding pressure treatment)

Options

- A choice of Redwood, Heavy Duty Redwood, Heavy Duty Pressure Treated or Western Red Cedar tongue and groove cladding types
- Georgian style windows and doors
- Square leaded glazing
- Tinted glass (plain glass only)
- Additional windows
- Privacy style windows
- Brass or chrome ironmongery
- Bitumen felt tiles - available in a choice of three colours
- Pressure treated slatted roof
- Cedar slatted roof
- Cedar shingle roof
- Slate effect tiled roof – available in a choice of three colours
- High pitch roof
- Tongue and groove timber lining and insulation
- Painted MDF lining and insulation
- Comprehensive paint system to protect and decorate available in a variety of colours
- Internal partition walls can be added to create an additional room which can be accessed via external shed style doors and/or internal doors
- Laminate floor - a wide selection to choose from
- Heavy duty floor
- A set of pressure treated floor bearers

Fully Boarded Panels	100 per running metre

Glossary of Terms

Coloured Painted Finish

A comprehensive paint system is applied prior to the building leaving the factory. The paint system comprises of an initial undercoat and a further top coat of your chosen colour.

Painted MDF lining and insulation

Building is internally lined with foil back bubble insulation and covered with a painted MDF moisture resistant tongue and groove board. Available in White, Soft White, Vintage White, Smoke White and Honey Dew.

Tongue & Groove lining and insulation

Building is internally lined with foil back bubble insulation and covered with redwood tongue and groove matchboard.

Bitumen Felt Tiles

Roof is covered with tile effect heavy duty felt tiles.

Slatted Roof

An aesthetic roof made with featheredged pressure treated redwood or Western Red cedar boards to enhance the appearance of your building and provide added protection to the roofing felt beneath.

Cedar Shingle Roof

Western Red cedar shingles fixed roof tile which emulates the appearance of natural slates and has a long life span with no maintenance.

Slate Effect Roof Tile

Slate effect roof tile is a synthetic roof tile which emulates the appearance of natural slates and has a long life span with no maintenance.

EPDM Rubber Roof

A maintenance free synthetic rubber membrane covering the roof as an alternative to roofing felt.

Guttering

Guttering is available in a choice of three colours.

Leaded windows and doors

Square leaded windows and doors as an optional upgrade.

Georgian windows and doors

Windows and doors with half jointed Georgian style crossbars.

Tinted Glass (plain glass only)

All glazing has one side with an anti-sun tint applied to the unit.

Laminate

Premium hard wearing laminate flooring with a wide range of styles to choose from.

Engineered Oak Flooring

Engineered wood flooring is constructed in a way that it provides better stability and resistance to variations in temperature and moisture. It looks like solid wood flooring as the top layer is real solid wood, but it then has a plywood base construction underneath.

Brass or chrome ironmongery

Upgrade all ironmongery for either solid brass or chrome to suit.

A set of Floor Bearers

Floor Bearers are 45 x 45mm (2" x 2") pressure treated lengths of timber which run in an opposite direction to the floor joists making a crisscross formation, allowing air circulation and ventilation to your garden building, taking away direct contact from the base and helps prevent damp from attacking the timbers.

DOOR OPENINGS (W X H)	
Hopton Single Door	600mm x 1829mm
All other Double Doors	1130mm x 1829mm
Internal Matchboard Door	890mm x 1770mm

Tounge and Groove Lining	12mm
Skirting	12mm
Cedar Skirting	12mm

FLOOR THICKNESS	
Standard Floor	13mm
Heavy Duty Floor	19mm
Pressure Treated Joists	45mm

Important Points

to note

All of our Cottage Range of Summerhouses come with a guarantee against rot and decay. Twelve years for cedar, eight years for pressure treated and redwood.

All other workmanship and materials are guaranteed to be free from defects and faulty installation for a period of 12 months. All of our guarantees are subject to the buildings being maintained in line with our recommendations.

Our recommendations are that all timber garden structures require ongoing maintenance following installation. Cedar, redwood & pressure treated redwood require annual timber treatment to be applied, ideally prior to the colder wetter months for added protection. We recommend all spray painted buildings are maintained on an annual basis, inspect the painted areas on the building, checking for any areas where the paint finish maybe starting to deteriorate over time, peeling or flaking and repaint where necessary. A full guide of maintenance guidelines are available on request.

All base work is the responsibility of the customer, as is the safe securing of the building once installed, excluding cedar victorian. We require a level solid base, either paving slabs, decking or concrete upon which to install your building. In the event of a base failure, it is the customers responsibility to accept delivery of the building, safely and store appropriately.

Please allow as much room as possible around the building for our fitters to work during installation, a minimum of 450mm. If this is not possible please contact the office to discuss.

Our installers will need clear access to carry building sections from the vehicle to your prepared base, with no height restrictions or tight, sharp corners to negotiate.

Our installers cannot lift sections over 1.22m in height or over buildings such as garages. If the only access is through the house, a straight run is required and many sections will not pass through doorways. Please advise us in advance if there are any difficulties regarding access.

Always make allowance for any roof overhang when buildings have to go into confined spaces.

All redwood and cedar garden rooms have redwood roofs and floors. Cedar buildings have cedar windows, doors and external cladding only i.e. they have redwood framing, floors, roofs and open areas. All pressure treated sheds are pressure treated throughout.

Ironmongery is black as standard, brass and chrome are available as an optional upgrade.

All building dimensions shown in this brochure are approximate, based on floor sizes.

All timber used in the construction of our buildings originates from sustainable forests.

As it is our policy to continually improve products, methods and materials, we reserve the right to change specifications from time to time, we will not make any significant variations without your agreement.

All images and descriptions are for illustration purposes only and are not always standard specification.

All building sizes are approximate and for guidelines only. All timber measurements, if stated, are finished sizes only i.e. after machining. Please note that finished sizes can vary by plus or minus 1mm.

We strongly advise that you visit one of our showrooms to view the range of buildings and finishes.

Flooring Options

Engineered Oak Flooring
